JRP INVESTMENT GROUP

CLIENT BOOK

Our private app for every buyer, seller, property and conversation, with automatic buyer–seller matching and call reminders.

- IPHONE
- ANDROID
- WINDOWS
- MAC
- IPAD / TABLET

01 SECURE EMPLOYEE LOGINS

- Every employee has their own email and password.
- **Admin:** manages the team, can delete. **Staff:** search, add, edit, comment.
- Switch someone off and they are locked out instantly; their history stays.

02 FIND ANYONE IN SECONDS

- Search by **name, phone** (any format), **email** or **property address**.
- Filter: Buyers, Sellers, and **any agent's clients** or Unassigned.
- Each card shows the **assigned agent** and the **last note** (who, when, what).

03 CLIENT PROFILES

- One tap to **Call, Text or Email**.
- Last note at the top, then properties, contact info, comments, files.
- **1031 exchange** buyers: the app suggests making them Buyer & Seller.

04 PROPERTIES & LISTINGS

- A person can have any number of properties; each has its own page.
- Map, listing details, and comments / files for just that property.
- Only properties marked **For sale** are matched with buyers.

05 COMMENTS & FULL HISTORY

- Every comment saved with **name, date and time** automatically; can't be edited.
- **Full history** of every change: who did what, when.
- Upload documents and photos (up to 20 MB each).

06 CALL REMINDERS → PHONE CALENDAR

- After a comment: *"Set a reminder to call…?"* Pick date and time.
- One tap adds **"Call <name>"** to the phone's calendar with a 15-minute alert.
- **My reminders** on the home screen; overdue ones in red.

07 SELLER QUESTIONS (each property)

- Listing status · Property type · **Asking price** · Brand
- Gas volume · Gas margin · C-store sales · Fuel contract
- MPD's · Building & lot size · Tank size · Double walled
- Rental income (+ how much) · Gross profit · Nearest freeway
- ABC & cigarette license (yes / no / applied) · EBT · Lottery
- Building rent · Hours of operation · Additional info

08 BUYER QUESTIONS

- Property types wanted · **Brand interested in**
- **State interested in** · Branded or independent
- **Funds** (total buying power) · Cash injection
- 1031 exchange → suggests making them Buyer & Seller
- Business experience (where, how many years)

09 AUTOMATIC BUYER ↔ SELLER MATCHING

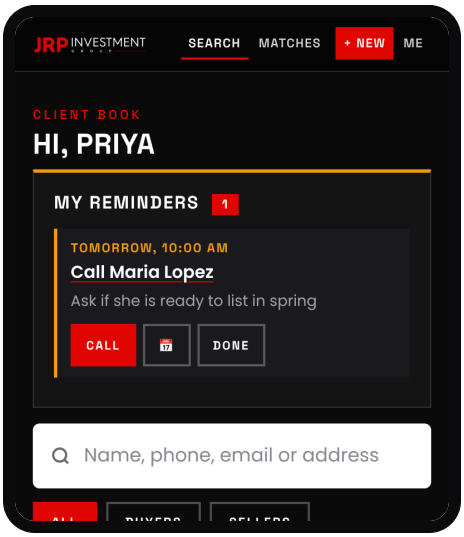

Every buyer is compared with every property for sale and scored 0–100. Agents see matches on each buyer's profile, each listing's page, and the **Matches** page.

GREAT 85+ | GOOD 70–84 | AVERAGE 50–69 | NOT GOOD <50 | NOT ENOUGH INFO

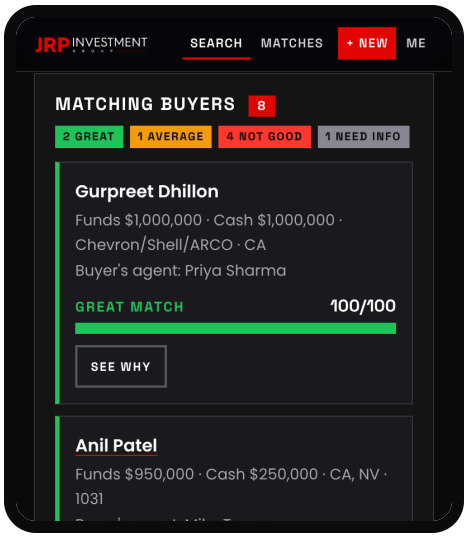

50%	20%	15%	10%	5%
Price vs funds	Property type	State	Brand	Branded / indep.

"See why" calculator: asking price vs funds, the gap in **$ and %**, how much more the buyer needs *or* how much the seller must drop, cash injection as % of asking, and a ✓ / ✗ for every rule. Wrong property type or state = not a good match.

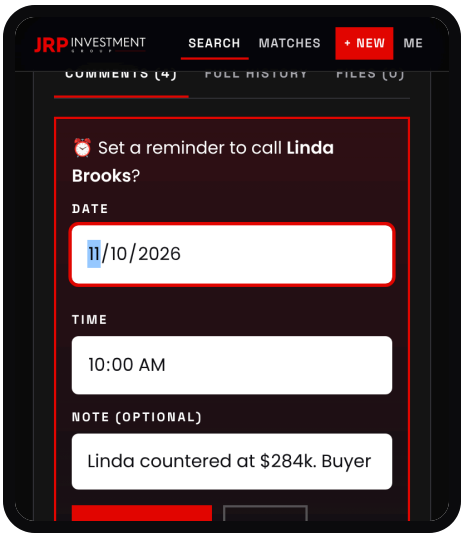

WHAT IT LOOKS LIKE

HOME SCREEN
My reminders, search, filter by agent. Each card shows who owns the client and the last note.

MATCHING BUYERS
Every buyer ranked for a $1M gas station, each with a match meter and a "See why" button.

CALL REMINDER
Asked right after saving a comment; then one tap adds it to the phone's calendar.

GETTING STARTED (EMPLOYEES)

1. You'll get a **link** and your **login** by email or text.
2. **iPhone:** open the link in **Safari** → Share ⬆️ → **Add to Home Screen**.
3. **Android:** open in Chrome → **Install app**.
4. **Windows / Mac:** open in Chrome or Edge → install icon in the address bar.
5. Tap the **JRP** icon from then on. Updates arrive automatically; nothing to download.

WHO CAN DO WHAT

	STAFF	ADMIN
Search & view all clients	Yes	Yes
Add / edit clients & properties	Yes	Yes
Comments, files, reminders	Yes	Yes
Delete clients, properties, files	No	Yes
Add employees, reset passwords	No	Yes

A TYPICAL DAY

1. Check **My reminders** and tap **Call**.
2. After the call, write **what happened**, then set the next reminder.
3. New seller? **+ New** → **Seller**, answer the listing questions.
4. Open **Matches** to see which buyers fit, and why.

SAFE & RELIABLE

- Tested with 15 people using it at once: no lost data.
- Works on old phones and slow connections.
- Login lock after repeated wrong passwords.
- Comments can't be edited, so the record stays honest.

BEFORE WE GO LIVE

- [ ] Google Sheets copy of all data (automatic backup view)
- [ ] Real employee logins (no sample data)
- [ ] Our own web address (to be decided)

Questions or ideas? Write them down during the walkthrough. Questions, matching rules and screens can all be adjusted before launch.
